Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I purchased a Tracfone to avoid these stupid monthly charges and long contracts. It is also very convenient for my son and I to keep tabs on each other. It limits his use of the cellular phone and mine also. While I understand as gov't agency you feel the need to dip your fingers in evryone else's pie, I would truly appreciate it if you stayed out of this one. Don't you get enough money from everyone else?

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Jennifer Harris
